

Important Notice From Independence Blue Cross About Your Prescription Drug Coverage and Medicare

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Independence Blue Cross and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

- 1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.**
- 2. Independence Blue Cross has determined that the prescription drug coverage offered by your Personal Choice plan is, on average for all plan participants, NOT expected to pay out as much as standard Medicare prescription drug coverage pays and is considered Non-Creditable Coverage. This is important, because most likely, you will get more help with your drug costs if you join a Medicare drug plan, than if you only have prescription drug coverage from your Personal Choice plan.**
- 3. You have decisions to make about Medicare prescription drug coverage that may affect how much you pay for that coverage, depending on if and when you join. Read this notice carefully - it explains your options.**

Consider joining a Medicare drug plan. You can keep your coverage from your Personal Choice plan. You can keep the coverage regardless of whether it is as good as Medicare drug plan. However, because your existing coverage is, on average, NOT at least as good as standard Medicare prescription drug coverage, you may pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

You can join a Medicare drug plan when you first become eligible for Medicare and each year from November 15th through December 31st. This may mean that you may have to wait to join a Medicare drug plan and that you may pay a higher premium (a penalty) if you join later. You may pay that higher premium (a penalty) as long as you have Medicare prescription drug coverage.

You need to make a decision.

When you make your decision, you should compare your current coverage, including which drugs are covered, with the coverage and cost of the plans offering Medicare prescription drug coverage in your area.

If you do decide to join a Medicare drug plan and drop your prescription drug coverage, be aware that you and your dependents may not be able to get this coverage back.

You should also know that if you drop or lose your coverage and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer without prescription drug coverage that's at least as good as Medicare's prescription drug coverage, your monthly premium may go up by at least 1% of the base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without coverage, your premium may consistently be at least 19% higher than the base beneficiary premium. You may have to pay this higher premium (penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following November to join.
